PROFESSIONAL SUMMARY

Artificial Intelligence & Data Science undergraduate specializing in AI-powered applications, developer analytics platforms, and scalable web systems. Finalist in national AI hackathons, ranked top 5% among 300+ teams. Interested in AI/ML engineering, cloud computing, and intelligent software systems.

TECHNICAL SKILLS

Languages: Python, Java, C, JavaScript

AI / ML: TensorFlow, PyTorch, Scikit-learn, Feature Engineering, Model Evaluation

Cloud & DevOps: AWS (EC2, S3, Lambda), Docker, Git, GitHub, Vercel

Web & Mobile: HTML, CSS, JavaScript, Flutter, Android Studio

Core CS: Data Structures, Algorithms, Database Systems, Computer Architecture

EDUCATION

B.Tech - Artificial Intelligence & Data Science (2024-2028) | Mahendra Engineering College, Namakkal | CGPA: 8.17

INTERNSHIP EXPERIENCE

Web Development Intern | DIT Solutions, Chinnasalem, Kallakurichi, TN | Jun-Jul 2026

- Completed a hands-on Web Development Training Program: HTML, CSS, JavaScript, responsive design, frontend/backend development, database management, and deployment.
- Successfully completed all assigned projects, demonstrating strong technical skills.

PROJECTS

SkillForge - AI Career Mentorship & Skill Gap Analyzer | <https://skillforge-seven-psi.vercel.app/>

- AI platform recommending career pathways and identifying skill gaps from developer profiles; finalist at InnovateX All-India AI Hackathon (Top 15 / 317 teams).

GitFolio AI - AI GitHub Portfolio Analyzer | githubportfolio-ai.vercel.app

- AI platform evaluating GitHub repositories with automated scoring and personalized improvement recommendations.

APEX F1 - Cinematic Formula 1 Platform | apex-f1-tan.vercel.app

- High-performance Formula 1 blog platform with cinematic UI animations and scalable frontend architecture.

GHOST-COD (Fan-Made Project) | ghost-cod.vercel.app | github.com/Guru-CodesAI/GHOST-COD

- Cinematic, interactive fan-made web experience inspired by Simon "Ghost" Riley; not affiliated with Call of Duty or Activision. Built with Next.js, Three.js, GSAP, Tailwind CSS.

YUVA Expense Tracker | github.com/Guru-CodesAI/Yuva-Expense-Tracker

- Voice-first Tamil expense tracking app enabling users, particularly elderly users, to record daily expenses by speaking.

CERTIFICATIONS

MongoDB (Credly-verified): How MongoDB Enables a Resilient AI Strategy | Building AI Agents with MongoDB | Building AI-Powered Search with MongoDB Vector Search | Building RAG Apps Using MongoDB | MongoDB Basics for Students

HACKATHONS & ACHIEVEMENTS

- InnovateX All-India AI Hackathon - Finalist, ranked 13th of 317 teams (Top 15 nationwide).
- Hack4Us Hackathon - 6th Place (National Level, Maharaja Surajmal Institute, New Delhi).
- AI WebForge - 3rd Place | Code Relay 2K26 - 2nd Prize.

INTERESTS & ACTIVITIES

Hobbies: Travelling, Reading, Video Games | Sports: Ball Badminton, Volleyball, Karate
